

### EDUCATE

Blockchain is set to revolutionize how value moves across the globe in the fastest, most secure manner possible. We guide you through this landscape.

### TRADE

Our expert team of consultants will provide education on how client's can buy, sell, and hold crypto assets. Managing a portfolio is easier than it seems.

### LONG-TERM HOLD

Instruction on using hardware wallets to securely store your crypto and remain in complete control of funds. We'll make sure you never lose ownership to pass your coins securely to a beneficiary.

### TRANSACTIONS

Navigating blockchain transactions can be daunting, with the risk of losing your crypto if not executed correctly. Rely on our security-first experts to handle transactions between exchanges and your hardware wallet.

## OUR MISSION

BitcoinShield Inc. is a Massachusetts registered consulting company that leads clients through buying, storing, trading, and transferring in cryptocurrency using the industry's most secure and reputable methods. Our team crafts the ideal combination of security, access and potential of your holdings.

## HOW WE PUT IT ALL TOGETHER

- Complimentary consultation with our experts and discussion of fee model.
- Collaborative creation of a customized crypto portfolio and security strategy.
- Provision and activation of a hardware wallet, ensuring secure crypto key ownership.
- Safely transfer coins between exchanges and hardware wallet.
- Move coins between regulated exchanges or DEX for swaps or liquidation as needed.
- Virtual portfolio to track assets unlinked to hardware wallet for security.

Co-Founder &  
Managing Director

## LET'S GET STARTED

Congratulations on entering the world of cryptocurrency!

We are a Boston based team of Crypto consultants who operate solely on the principle of "not your keys, not your coins." Our expert team will walk you through the entire process from creating a portfolio, setting up and using a hardware wallet, to transferring assets to and from exchanges and then liquidating to USDC or cash. To date, BitcoinShield consulting has helped provide keys to our customers leading to the secure self-custody of \$7 Million of Crypto assets.

## CRYPTOCURRENCY CUSTODY PORTFOLIO

## MASTER THE ART OF CRYPTO SELF - CUSTODY

In the dynamic world of cryptocurrency, safeguarding your investment is paramount. Here at BitcoinShield, we prioritize security with cutting-edge protocols and measures to ensure the protection of your assets. Over the last decade, an alarming average of 1500 Bitcoins per day have been lost. Our approach provides you with unparalleled control and ownership of your assets. Although we guide in the set up and transfer, we are never able to access your assets unless granted permission during client consented procedures.

BitcoinShield Security Solution:

- Cold Storage Hardware Wallet
- Recovery Phrase
- Custom Case
- Virtual Portfolio
- Transaction Experts
